Glades Reservoir Draft Environmental Impact Statement

October 2015

Draft Environmental Impact Statement

MASTER TABLE OF CONTENTS

ACRONYMS/ABBREVIATIONS

EXECUTIVE SUMMARY

1 PURPOSE AND NEED

1.1	INTRODUCTION	1-1
1.1.1	Project Background	1-1
1.1.2	Applicant’s Proposed Project.....	1-4
1.2	APPLICANT’S STATED PURPOSE AND NEED	1-8
1.2.1	Applicant’s Stated Purpose.....	1-8
1.2.2	Applicant’s Stated Need	1-8
1.3	HALL COUNTY BACKGROUND.....	1-9
1.3.1	Background	1-9
1.3.2	Hall County’s Statutory Authorities and Responsibilities	1-11
1.3.3	Service Area for the Proposed Project	1-11
1.4	CURRENT WATER SERVICES	1-11
1.4.1	Overview of Water Systems in Hall County.....	1-11
1.4.2	2006 Intergovernmental Lease and Management Agreement	1-12
1.4.3	Water Supply Sources	1-15
1.4.4	Water Treatment Facilities.....	1-17
1.4.5	Current Water Use	1-18
1.4.6	Current Water Conservation Programs	1-21
1.5	THE U.S. ARMY CORPS OF ENGINEERS’ DETERMINED PURPOSE.....	1-22
1.5.1	The U.S. Army Corps of Engineers’ Basic Purpose and Water Dependency Determination	1-22
1.5.2	The U.S. Army Corps of Engineers’ Overall Project Purpose	1-22
1.6	THE CORPS’ NEED ANALYSIS.....	1-22
1.6.1	Population Projections	1-23
1.6.2	Availability and Reliability of Lake Lanier Water Supply Storage.....	1-26
1.6.3	Demand Forecasts.....	1-27
1.6.4	Factors and Demand Forecast Model used for Hall County’s Future Demand Forecasts	1-28
1.6.5	The Corps’ Demand Projection Scenarios	1-29
1.6.6	The Corps’ Determination of Need	1-32
1.7	ADMINISTRATIVE AND ENVIRONMENTAL REQUIREMENTS (OTHER PERMITS AND APPROVALS).....	1-35
1.7.1	U.S. Army Corps of Engineers.....	1-36
1.7.2	Georgia Environmental Protection Division	1-36
1.7.3	U.S. Environmental Protection Agency.....	1-37
1.7.4	Metropolitan North Georgia Water Planning District.....	1-37
1.8	DEIS PREPARATION.....	1-37

Draft Environmental Impact Statement

1.9	DEIS ORGANIZATION.....	1-38
2	ALTERNATIVES ANALYSIS	
2.1	INTRODUCTION	2-1
2.2	OVERVIEW OF ALTERNATIVES IDENTIFICATION AND SCREENING PROCESS.....	2-2
2.2.1	Potential Water Supply and Infrastructure Components.....	2-3
2.2.2	Water Supply Alternatives.....	2-4
2.3	PHASE 1: WATER SUPPLY INFRASTRUCTURE COMPONENTS.....	2-5
2.3.1	Phase 1A - Screening of Components for Feasibility.....	2-11
2.3.2	Phase 1B – Preliminary Environmental Screening.....	2-15
2.4	FINAL SCREENED COMPONENTS	2-20
2.4.1	Water Purchase from Jackson County.....	2-22
2.4.2	Groundwater.....	2-22
2.4.3	Additional Conservation	2-22
2.4.4	Lake Lanier Additional Storage Allocation.....	2-23
2.4.5	Cedar Creek Reservoir	2-23
2.4.6	New Reservoir Sites.....	2-23
2.4.7	Transmission	2-34
2.5	PHASE 2: FORMULATION AND SCREENING OF ALTERNATIVES.....	2-39
2.5.1	Definition of Unmet Need	2-39
2.5.2	Phase 2A: Formulation of Alternatives	2-41
2.5.3	Phase 2B: Screening of Formulated Alternatives	2-44
2.5.3.1	Stream Impact Assessment.....	2-46
2.6	OVERVIEW OF SCREENED EIS ALTERNATIVES	2-64
2.6.1	Applicant’s Proposed Project.....	2-64
2.6.2	No Action Alternative (L60).....	2-66
2.6.3	Formulated Alternatives	2-70
2.7	EIS ALTERNATIVES PRELIMINARY ENGINEERING: CONSTRUCTION LOGISTICS	2-93
2.7.1	Construction Schedule, Sequencing, and Permit Conditions.....	2-93
2.7.2	Temporary Sediment and Erosion Control.....	2-101
2.7.3	Dam and Reservoir Construction Methods.....	2-101
2.7.4	Transmission System and Treatment Plant Construction Methods	2-102
2.7.5	Construction Equipment.....	2-103
2.7.6	Construction Traffic	2-104
2.7.7	Construction Workforce	2-106
2.7.8	Post-Construction Activities.....	2-106
2.8	EIS ALTERNATIVES PRELIMINARY ENGINEERING: ESTIMATED COST OF BUILD ALTERNATIVES.....	2-106
3	AFFECTED ENVIRONMENT	
3.1	INTRODUCTION	3-1

Draft Environmental Impact Statement

3.2	REGIONAL SETTING AND MAJOR INFRASTRUCTURE COMPONENTS	3-2
3.3	WATER RESOURCES.....	3-4
3.3.1	Surface Water Hydrology	3-4
3.3.2	ACF Water Management.....	3-23
3.3.3	Water Quality	3-35
3.3.4	Floodplains	3-41
3.3.5	Groundwater	3-45
3.4	SOILS AND GEOLOGY	3-50
3.4.1	Physiography	3-50
3.4.2	Mineral Resources.....	3-51
3.4.3	Piedmont Hydrogeology.....	3-52
3.4.4	Soils	3-52
3.4.5	Prime and Unique Farmlands	3-53
3.5	LAND USE	3-54
3.6	CLIMATE AND GREENHOUSE GAS.....	3-56
3.6.1	Existing Climate	3-56
3.6.2	Temperature	3-57
3.6.3	Historical Precipitation and Droughts.....	3-59
3.6.4	Evaporation	3-63
3.7	BIOLOGICAL RESOURCES	3-66
3.7.1	Upland Vegetation	3-66
3.7.2	Wetlands, Streams, and Other Waters.....	3-73
3.7.3	Wildlife	3-85
3.7.4	Protected Species.....	3-88
3.8	SOCIOECONOMIC CONDITIONS	3-103
3.8.1	Demographics and Environmental Justice.....	3-103
3.8.2	Housing, Communities, and Transportation.....	3-110
3.8.3	Economic Trends	3-115
3.8.4	Recreation	3-117
3.9	VISUAL AND AESTHETIC RESOURCES.....	3-122
3.9.1	Glades Reservoir Alternatives.....	3-123
3.9.2	White Creek Reservoir Alternatives.....	3-124
3.10	AIR QUALITY	3-126
3.10.1	Ambient Air Quality	3-126
3.10.2	Greenhouse Gases (Climate Change)	3-127
3.11	NOISE	3-129
3.11.1	Definitions and Common Sound Levels.....	3-129
3.11.2	Local Noise Ordinances and Existing Noise Conditions.....	3-131
3.12	CULTURAL RESOURCES	3-133
3.12.1	Regulatory Context.....	3-133

Draft Environmental Impact Statement

3.12.2	Area of Potential Effects.....	3-134
3.12.3	Summary	3-142
3.13	NATIVE AMERICANS	3-143
3.14	HAZARDOUS MATERIALS	3-143
4	ENVIRONMENTAL CONSEQUENCES	
4.1	INTRODUCTION	4-1
4.1.1	Types and Definitions of Impacts	4-1
4.1.2	Level of Impact and Description	4-2
4.2	APPROACH FOR EVALUATING IMPACTS	4-2
4.2.1	Summary of Alternatives Carried Forward for Impact Analysis.....	4-3
4.2.2	Planning Horizon	4-4
4.2.3	Alternative Implementation	4-5
4.2.4	Baseline Conditions	4-6
4.2.5	Key Assumptions for Impact Comparison.....	4-7
4.3	SURFACE WATER MANAGEMENT AND ASSESSMENT	4-10
4.3.1	Instream Flow Protection	4-13
4.3.2	Direct Impact to Streamflow Upstream of Lake Lanier	4-18
4.3.3	Upstream Flow Alteration	4-19
4.3.4	Indirect Impact Evaluation to the ACF Basin.....	4-52
4.3.5	Downstream Impacts	4-60
4.3.6	Groundwater	4-93
4.4	SURFACE WATER QUALITY	4-94
4.4.1	Water Quality in Chattahoochee River Below Proposed Lake Intake and Above Lake Lanier.....	4-94
4.4.2	Water Quality in the Proposed Reservoirs	4-95
4.4.3	Downstream Water Quality Effects.....	4-101
4.4.4	Watershed Protection and Management.....	4-102
4.5	IMPACTS TO SOILS AND GEOLOGY	4-107
4.5.1	Soil Erosion, Topsoil Loss, and Permanent Construction Impacts.....	4-107
4.5.2	Mining and Mineral Needs	4-107
4.5.3	Prime and Unique Farmland.....	4-108
4.5.4	Summary of Impacts by Alternatives.....	4-108
4.6	LAND USE	4-110
4.6.1	Applicant’s Proposed Project (L18-G50-PT).....	4-111
4.6.2	Alternative 1 (L18-G42-PT)	4-112
4.6.3	Alternative 2 (L18-G42-PL)	4-113
4.6.4	Alternative 3 (L18-G42-WTP).....	4-114
4.6.5	Alternative 4 (L30-G30-PT)	4-115
4.6.6	Alternative 5 (L30-G30-PL)	4-116
4.6.7	Alternative 6 (L30-G30-WTP).....	4-117

Draft Environmental Impact Statement

4.6.8	Alternative 7 (L43-G17-PT)	4-118
4.6.9	Alternative 8 (L43-G17-PL)	4-119
4.6.10	Alternative 9 (L43-G17-WTP).....	4-120
4.6.11	Alternative 10 (L43-W17-PT)	4-121
4.6.12	Alternative 11 (L43-W17-PL)	4-122
4.6.13	No Action – L60	4-123
4.6.14	Road Impacts.....	4-123
4.6.15	Topography Impacts.....	4-123
4.7	ENERGY NEEDS AND CLIMATE (GREENHOUSE GAS).....	4-124
4.8	BIOLOGICAL RESOURCES	4-127
4.8.1	Upland Vegetation	4-127
4.8.2	Wetlands, Streams, and Other Waters.....	4-131
4.8.3	Wildlife	4-135
4.9	SOCIOECONOMIC CONDITIONS	4-158
4.9.1	Housing, Communities, and Transportation.....	4-158
4.9.2	Demographics and Environmental Justice.....	4-168
4.9.3	Recreation	4-173
4.9.4	Economics	4-184
4.10	VISUAL AND AESTHETIC RESOURCES.....	4-191
4.10.1	Direct Impacts	4-191
4.11	AIR QUALITY	4-197
4.11.1	Background	4-197
4.11.2	Methodology.....	4-197
4.11.3	Project Air Emissions	4-198
4.11.4	Results.....	4-206
4.11.5	Mitigation and Monitoring.....	4-207
4.12	NOISE	4-208
4.12.1	Reservoir and Dam (All Reservoir Alternatives).....	4-208
4.12.2	River Water Transmission Systems (All Reservoir Alternatives)	4-210
4.12.3	Reservoir Transmission Systems (All Reservoir Alternatives)	4-211
4.12.4	Water Treatment Plant.....	4-211
4.12.5	Local Re-routed Roads.....	4-212
4.12.6	Potential Mitigation.....	4-212
4.12.7	No Action Alternative	4-213
4.13	CULTURAL RESOURCES	4-214
4.13.1	Summary Impacts for All Reservoir Alternatives	4-214
4.13.2	Mitigation and Monitoring	4-215
4.13.3	Unavoidable Adverse Impacts.....	4-215
4.14	HAZARDOUS MATERIALS	4-216
4.14.1	Glades Reservoir.....	4-216

Draft Environmental Impact Statement

4.14.2	White Creek Reservoir.....	4-218
4.15	CUMULATIVE EFFECTS	4-221
4.15.1	Introduction	4-221
4.15.2	Methodology.....	4-221
4.15.3	Analysis of Cumulative Impacts.....	4-231
5	PUBLIC INVOLVEMENT AND AGENCY COORDINATION	
5.1	PUBLIC SCOPING	5-1
5.1.1	Public Scoping Meetings	5-1
5.1.2	Agency Scoping Coordination Meetings	5-2
5.1.3	Scoping Comments and Report	5-2
5.1.4	Legal Notice	5-3
5.2	PUBLIC HEARING.....	5-3
5.3	AGENCY COORDINATION.....	5-3
5.3.1	Cooperating Agencies	5-3
5.3.2	Other Agencies	5-4
5.4	EIS PREPARATION TEAM.....	5-4
5.4.1	Applicant.....	5-4
5.4.2	Federal Lead Agency.....	5-4
5.4.3	Third-party Consultant.....	5-5
